

Public Health Workforce Development Internship Program

Health Education Internships - Fall 2024

Worksite: *Regional Institute for Children and Adolescents (RICA) - Baltimore*

Location: *Baltimore, MD (Baltimore City)*

Title: *Nutrition Department Intern*

Main Purpose:

To introduce students to the different areas of public health including the important role the nutrition department plays in a residential and day student facility. To enhance their knowledge of public health through their studies by providing an opportunity to work within an essential public health function which is to feed people and educate regarding healthy foods. The student intern will work with in the nutrition department to prepare them with greater knowledge about nutrition services in a healthcare facility tha may help them as they enter the workforce in their respective fields.

Worksite: *Spring Grove Hospital Center*

Location: *Catonsville, MD (Baltimore County)*

Title: *Public Health Intern*

Main Purpose:

The *Public Health* internship is perfect for a *recent college graduate or a current student*. *Tasks will be matched to your current skill set*. You'll gain valuable resume experience and build skills in training, staff education, program development, program implementation and documentation.

Our *public health* intern will be part of our *dietary team* and responsible for helping us to develop and roll out our new green initiatives as well as enhance staff and patient training and education programs. The intern will work with the project manager, Registered Dietitian, and the department education coordinator. Ultimately, the *skills our public health intern will build will be tools that they can take to any employer and career that they choose in the future*.
