

Public Health Workforce Development Internship Program

Health Informatics Internships - Fall 2024

Worksite: Office of the Deputy Secretary for Public Health Services

Location: Baltimore, MD (Baltimore City)

Title: PHS Data Modernization Intern

Main Purpose:

The **PHS Data Modernization** internship is perfect for a **recent or current college graduate**. This internship offers a unique opportunity to gain hands-on experience in public health data modernization, working directly with programs, policies, and processes to ensure they meet both federal and state Data Modernization priorities and standards.

Our Data Modernization intern will be part of the Office of the Deputy Secretary for Public Health Services **Data Modernization Team** and responsible for helping **drive forward our three-year data modernization strategy**.
