

Public Health Workforce Development Internship Program

Public Health Accreditation Internships - Fall 2024

Worksite: PHS Office of the Deputy Secretary

Location: Baltimore, MD (Baltimore City)

Title: Public Health Accreditation Intern

Main Purpose:

The Public Health Accreditation internship is perfect for a recent or current graduate intern. This internship offers a unique opportunity to gain hands-on experience in public health accreditation, working directly with programs, policies, and processes to ensure they meet the Public Health Accreditation Board (PHAB) standards.

Our Public Health Accreditation intern will be part of the Office of the Deputy Secretary for Public Health Services and will be responsible for supporting the reaccreditation process and associated activities such as PHS Strategic Plan and State Health Improvement Plan implementation and standing up performance management infrastructure. This includes helping prepare for the site visit from PHAB, ensuring all necessary materials and evidence are organized and available for review. Additionally, the intern will assist in the review and update of departmental programs, policies, and processes to ensure compliance with PHAB standards, conducting research, preparing documentation, and providing administrative support to the accreditation team.
